

**What to do**

after the

**Diagnosis**

of

**Autism?**

# What To Do After the Diagnosis of Autism?

1. Relax. Take a deep breath.
2. Ask for support and understanding from your family (and relatives).
3. Join parents and professionals in nonprofit organizations dedicated to ASD.
4. Find people who also experience autism as they can relate to you.
5. Educate yourself.

# What To Do After the Diagnosis of Autism?

1. Find out if you are eligible for services or funding in your local place.
2. Get on the waiting list.
3. Collect your child's records to keep track of his progress.
4. Don't forget that your child needs you. Interact with your child!
5. Stay healthy and take care of yourself.
